FIG 5

FIG. 1 is a perspective view of a circular plate 20. The plate has a central circular opening 29. Within this opening is a central ring 30. The plate features several elongated slots, with labels 27 and 28 pointing to specific ones. The plate is shown from a perspective that highlights its thickness and the central features.

A cross-sectional view of a mechanical assembly. The assembly features a central vertical component with a series of vertical ridges or fins. This central part is surrounded by a housing or casing. On the left side, there is a flange or mounting bracket with several bolt holes, labeled 18, 19, and 30. A component labeled 34 is positioned below this flange. On the right side, another flange or mounting bracket is shown, labeled 17. A component labeled 31 is positioned below this flange. A component labeled 32 is located between the central vertical component and the right flange. A component labeled 33 is located at the bottom of the central vertical component. The central vertical component is labeled 30.
